NUMBER 69

Forty Thousand Dollars Pledged.

Much interest is being manifested in the proposed electric road from Winchester through North Middletown to Sharpburg. Committees from Clark, Bath and Bourbon counties met Tuesday at North Middletown to discuss matters connected with the road. The committee from Clark county pledged a subscription of \$40,000, providing Bourbon and Bath together would give \$60,000, and it is thought it will be easy to raise the money. The Eastern capitalists who are interested will be here next week to look over the proposed route, which is of easy grade and can be cheaply built. The proposed road will penetrate a rich country which is now without railroad facilities.

Romances Dispelled.

One by one our illusions are being dispelled. The stories of Columbus and the egg; of Washington and the cherry tree, and other never happened, so historians tell us, and now a newspaper man says that John Morgan never tunneled out of the Ohio penitentiary, but that he bought his way out. After a while there won't be anything left for us to believe.

Solved the Problem.

A young man, who for the first time, had an engagement to accompany a young lady to an ice cream supper, was much puzzled to know how much cream to buy for her. He finally had recourse in Ray's Arithmetic and there finding, "one gal.—four quarts," went happily on his way, believing he had solved the problem, says one of our religious journals.

First Hoghead Sold.

The first hoghead of 1909 burley tobacco was received in Louisville Tuesday afternoon by C. A. Bridges & Co. at the Pickett warehouse. It represented the 1909 crop of John Switzer, of Trimble county. This is the earliest date on record for the burley to make its appearance. Indications are that the 1909 crop will move remarkably fast.

Easy Marks.

Some of the country newspapers in the State are easy marks for the wily and enterprising "Press agents," who under the guise of promoting some great enterprise of interest and value to the public are working over hours to give publicity to some scheme, the chief purpose of which is to put money in the pockets of individuals without cost to themselves. Why will papers suffer themselves to be milked dry by people who will afterwards laugh at them for being so easily played for suckers?

Extensive Improvement to Be Made.

Extensive improvements will be made during the next six months on the road bed and bridges of the Frankfort & Cincinnati railroad. President George B. Harper stated a few days ago he had contracted for the material to construct six steel bridges between Frankfort and Paris which means an outlay of \$50,000. When the bridges are put in the Frankfort and Cincinnati railroad will be able to carry over its line as much freight of any kind as is possible, and there will be no limit placed on the tonnage. Under the present arrangement the road is allowed only 120,000 tons gross, but when the new steel bridges are put in service they will hold up the heaviest freight that can be hauled over the line.

New and Nice.

Mt. Sterling Court.

At Mt. Sterling, Monday, there was a large crowd and between 4,000 and 5,000 head of cattle were on the market and 12,000 sheep unable to get in town. The best 1,000 pound steers brought \$4.65; yearlings at 4½ cents; while heifers were at 3½ to 4 cents; cows from 2½ to 3½ cents; bulls at 3 cents; cows and work oxen at 1½ to 2 cents.

Yankee Enterprise Killed.

Governor Harmon, of Ohio, did himself credit in stopping the movement to parade the cell at the penitentiary at Columbus, in which Gen. Morgan was confined as a prisoner of war, from being hauled through the country and put on exhibition for money consideration. And thus another bit of Yankee enterprise was killed before it fairly takes shape.

Indorsed Burley Pool.

At a meeting of the tobacco growers of Scott county, 80 per cent. of those present indorsed the Burley Society pool. There were no votes against the pledge. President Cantrill, of the Society of Equity, spoke in favor of the pool.

Suicide or Accident.

The naval court of inquiry into the death of Lieut. James Sutton found that the officer came to his death either by accidental shooting or by suicide, but just which it is not able to determine.

True.

Nine times out of ten, when a woman nags a man, there's a reason for it.

Cantrill With the Burley Society

That Congressman J. Campbell Cantrill, president of the Kentucky Union of the Society of Equity, will stand by the peace pact made at Winchester with the Burley Tobacco Society, regardless of what others do, was shown Wednesday night when he announced at his home in Georgetown that he would not attend the meeting of the tobacco department of the Society of Equity at Bowling Green. Mr. Cantrill by no means stands alone in his decided position toward the alliance with the Burley Society, as he stated Wednesday night that he had received letters from a large majority of the executive board of the Society of Equity in Kentucky indorsing the agreement made at Winchester and supporting his position in the matter.

Mr. Cantrill holds that the recent differences between the Society of Equity and the Burley Society cannot come up at the Bowling Green meeting as it is a meeting only of the national tobacco growers, which have nothing to do with the Equity Unions.

MATRIMONIAL.

—Miss Nell O'Brien, of Cincinnati, and Mr. Sweeney Gutzeit, of this city, were united in marriage at Niagara Falls, on August 5. The secret of the young couple was well kept until yesterday, when it became known to friends of the groom in this city. The bride is a handsome and attractive young woman, while the groom is a popular and efficient passenger brakeman on the L. & N. The happy young couple will arrive here Saturday night to make their home with the groom's mother, Mrs. Ida Gutzeit.

At Cost.

All our porch furniture and porch shades are going fast at cost. If you need anything in this line now is the time to buy.

DEATHS.

—Mrs. Helen Connell Foley, wife of Dr. Phil N. Foley, died at her home in Danville, Monday evening, after a short illness. Mrs. Foley was 27 years of age, and the youngest daughter of Mr. and Mrs. Nicholas Connell, of this city. She was a lovely young woman, with host of friends in this city, her former home. Besides her husband, she is survived by a little son, born on Thursday, August 12.

The funeral services were held in the Catholic church in this city, Wednesday morning, at 10 o'clock, conducted by Rev. Father Jas. L. Gorey, of Covington. Burial in Catholic cemetery.

The following were the pall-bearers: E. H. Gorey, Joe Grosche, Dr. Geo. K. Varden, Noah Spears, Pearce Paton and Dr. Wm. Kenney.

—A telegram was received here Wednesday morning announcing the death of Mr. John Hutsell at Hot Springs, Ark. Mr. Hutsell was formerly of Bourbon county, and was a nephew of Mr. John Tarr, of this city.

He moved from Mt. Sterling, Ky., to Hot Springs, Ark., several months ago and was proprietor of one of the large hotels in that city. Mr. Hutsell had been in bad health for a number of years, but since moving to Hot Springs had been improving, and was doing well in the hotel business, so he had just written his uncle, Mr. Tarr, a few days before the message came announcing his death. His remains will be brought to Millersburg, this country, his old home for interment.

—Miss Flossie Lawson, aged 13 years died Wednesday night at the Good Samaritan Hospital, Lexington, of typhoid fever. She was taken from this place to the hospital only a few days ago for treatment. She was the daughter of Mr. J. W. Lawson, who resides on Mr. Edw. Bedford's place near city limits. This death is peculiarly sad for only ten days ago Mr. Lawson's 19-year old daughter died at the Good Samaritan Hospital from same disease. He has the sympathy of all the good people of the community. The remains of Miss Flossie were taken to Stanford to be laid beside that of her sister, who preceded her to the grave only a few days ago.

—Richard C. Talbott, Jr., aged 33 years, died Tuesday night at the home of his parents, Mr. and Mrs. Richard C. Talbott, on South Pleasant street, after lingering illness with consumption.

Mr. Talbott was one of the most popular and efficient engineers on the L. & N. railroad, and had a host of friends. In fact, "Dick" Talbott, as he was familiarly called, was liked by everyone who knew him.

He was twice married; his first wife being a Miss Reed, of Covington, and his second wife who survives him, was Miss Ida Bethel, of the same city. He also leaves one son, Richard, by his first wife. His death causes universal sorrow and the remaining members of his family have the heartfelt sympathy of the entire community.

The funeral services will be held at the residence, on South Pleasant street, this (Friday) afternoon at 3 o'clock, conducted by Rev. Dr. B. M. Shive. Burial in Paris cemetery.

The pall-bearers are Harry Johnson, James McGarr, Houston Henry, Lee Brown, Ed. Coughlin, E. H. Gorey.

IT'S A LONG STEP

from the growing of the grain to the baking of the bread, but the intermediate necessity—the flour—is our specialty. Our household flour is milled from the choicest selected hard winter wheat, and contains all the most nutritious elements of the grain. It is not a white flour, but a natural product of the perfect wheat. Hence it makes the sweetest and purest bread.

Short Sermon on Lying.

[A natural element of the soul, heaven born, is that of perfect faith and trust. This luxury of the soul presents to us the great responsibility of parents and teachers. The parent or teacher often teaches a child to lie by speaking and acting lies. One of the most effective ways to manufacture a nation of liars and defaulters is by the object lesson system. A mother tastes some nauseous medicine, assuring the child by words and actions that it is very nice. The child takes the medicine, detects the lie the mother has told it, learns by such lessons to deceive and consequently never climbs to the mountain top of honor and write his name by the side of George Washington. No child could have the implicit confidence it would have had had the mother been true and said, "This medicine is bad to take. You are sick and it is necessary that you take it to get well." Such a course would inspire confidence and trust; truth would not be sacrificed, but a lesson of obedience and courage manifested in the presence of one of the little ones of whom the Great Teacher said, "Suffer little children to come unto me and forbid them not for such is the kingdom of heaven." Another instance—this used to belong to the schoolroom, possibly the practice has gone out of date ere this—we allude to the practice of self reporting. A young lady of truthful character, obnoxious lying, with a truthful mother who instilled this virtue in her daughter, was made to bow to untruth by this evil practice in the schoolroom. At first when her classmates, who had been whispering all day, answered "perfect," she felt a loathing and disgust, and always said she had whispered. The others who lied about it were praised continually, while she was publicly reprimanded before the school. Thus the teacher was giving a reward for dishonesty, and while unconscious of the fact, was aiding Satan to discourage virtue and during the character forming period of life, established an imperfect custom in one that might breed ruin and decay. Let us remember children are keen observers, but they are naturally sociable and friendly, and any departure from truth will wound the sensitive and trusting nature of a child. As we grow older, we realize no poet's pen or painter's brush can depict the glory of childhood, for such a day one would almost treat backwards through the checkered years and encounter the trials and disappointments, and pain and perplexities of life, and view was in the olden time on either side their withered hopes.]

Parents, live in such a manner that when you give to your children the good-bye kiss, they will honor you and revere your loving counsel. Teachers, so conduct your schools that your pupils may never learn to manifest brazen audacity and exhibit wares not their own and unlawfully obtained. Immortal souls are in your keeping. Their happiness for time and eternity largely depends upon you. Do not be instrumental in introducing false methods and wrong ideas of advancement, but train up the children in the morning of life in the "nurture and admonition of life in God," remembering that "as the twig is bent the tree is inclined."

Jeffersonian Barbecue.

The Democracy of Louisville extends an invitation to every Democrat in Kentucky, to attend the Jeffersonian Barbecue to be held in the Falls City August 31 and September 1, and promises every man who attends that he will see something and hear something that will do him good. The Democrats of the state are preparing for the great battles of the future, and this barbecue is to be held for the purpose of bringing the Democrats of Kentucky together in a sort of consultation, preparatory to the onslaught which is to be made on the Republican party, because of its incompetency and misrule in matters of state and nation, as well as the municipal affairs of Louisville.

Farming Taught in Public Schools

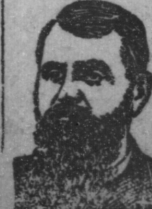

The teaching of Agriculture in common schools has been making rapid progress throughout the United States, and we now find it in the curriculum of every progressive school system. The city schools have led the movement in the form of school gardens, but the rural districts have grasped the opportunity and accomplished much.

The teaching of Agriculture was first looked upon as an experiment, and although successful, it took nine years for the movement to spread beyond the suburbs of one city. Texas was slow in taking hold, but after realizing that agriculture is the greatest of all callings we now find the subject required to be taught in her common schools by law. The Texas Legislature passed a bill of much value to the progress of this movement. This bill provides for an appropriation of \$32,000 for 1910 and \$32,000 for 1911 to establish equip and maintain departments in high schools for giving instruction in agriculture with its subsidiary subjects. The board of trustees seeking this aid shall provide a tract of land adapted to the production of farm and garden crops and employ a teacher who has received special training in agriculture and allied branches. The State Superintendent of Instruction shall make accurate and full investigation and report the result to the State Board of Education. Thus the youth is taught that in point of nobility independence cleanliness of living, happiness moral and physical healthfulness purity of citizenship and contentment agriculture is second to no vocation on earth.

Mild Laxative for Baby Free

The child of today is the parent of the future, and whether it grows up healthy and strong, or puny and weak, depends upon the intelligence of its parents, for most children are born into the world healthy, but thousands become future weaklings between birth and the age of ten, when the parents are still in greatest control. The prime cause of trouble is in the stomach. A baby that is digesting its food seldom cries and always looks cheerful; the little child whose stomach is good romps and plays and never whines; the growing child learns well at school and is eager for fun if its head is clear and its stomach light, and that means if it has no constipation. The best and safest way to cure any irregularity of the stomach and bowels in children is by the use of Dr. Caldwell's Syrup Pepsin. This is a liquid laxative wonderful in its effect as Mrs. John W. Dunham, Apple Creek, O., Mrs. H. L. Cullam, Plainville, Ind., and numerous others can testify who give it to their children with extraordinary results. A bottle only costs 50 cents or \$1 according to the size you want, and even one 50-cent bottle will do a wonderful amount of good in a family. It can be given to any member of the family in constipation, sour stomach, indigestion, torpid liver, dyspepsia, heartburn, sick headache and similar digestive troubles. It never gripes or strangles like pills, tablets, salts and powders, which should not be given to children, women or old folks. If you have a child or other member of the family who needs, but has never used this grand laxative tonic, send your name and address to the doctor and a free trial bottle will be sent to your home. In this way you can find out what it will do without personal expense.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 509 Caldwell bldg., Louisville, Ill.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whiskey or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

Uncle Sam's Mistake.

There is no reason why the government should engage in any line of business that comes into direct competition with private interests. There is no more reason why the government should furnish envelopes with the regular return card printed thereon, practically at cost than it should sell shoes on the same basis to the consuming public. The way to discourage this sort of business is for the local merchant and business man to buy at home. Most assuredly he would register a big kick were the government to go into business in competition with his line.

Soldier Balks Death Plot.

It seemed to J. A. Stone, a civil war veteran, of Kemp, Tex., that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds." Baldwin Apple Honored.

A chance seedling that grew up on a farm near Lowell, Mass., about 1740 became the first Baldwin apple tree, but it was not until 1784 that Col. Baldwin became interested in the apple, developed it and gave it his name. The original tree lived till after 1817, and the place where it grew is now marked by a monument. The Baldwin is the only apple thus honored.

Federal Machine Beaten by Bradley.

Senator Bradley won a distinct victory Tuesday afternoon when the chairman of all the Republican county committees of the Seventh Congressional District met at Frankfort shortly after 12 o'clock Tuesday to select a successor to Charles O. Reynolds, who has resigned as State Central committeeman. The meeting was called to order by George L. Barnes the secretary of the committee. On motion of committeeman Stuart, of Bourbon, John Hutchison was elected temporary chairman for the meeting. The roll of counties was called for nominations for State Central Committeemen and Stuart nominated H. Clay Howard, of Bourbon, and Geo. L. Barnes nominated Miles Williams, of Henry. The ballot resulted in the election of Howard by five to three. The committeemen from Bourbon, Scott, Owen, Henry and Oldham voted for Howard, while Franklin, Fayette and Woodford voted for Williams. Preceding the ballot, committeeman John Sinclair, of Scott, stated that Scott county would have no candidate as L. L. Bristow in obedience to the order issued Saturday by President Taft would decline to allow his name to be used as he did not propose, while he was census supervisor, to mix in politics.

The election of Howard is regarded as a victory for Senator Bradley and it was whispered about the corridors of the hotel that considerable pressure had been brought to bear direct from Washington, in Howard's behalf. The committeemen from Henry county declined to support his home man, Miles Williams, and voted for Howard.

Big Sack of Gold Lost.

Officials of the Federal government and of the American Express Company are investigating the mysterious disappearance of \$4,000 from treasurer sack sent to Cincinnati from Camp Perry, O., last week. The money was in gold and was the surplus after all of the men of the regular army, navy, marine corps and militia who are taking part in the national rifle contests at the camp were paid off last week.

The gold was sent from Camp Perry to Cincinnati and thence to Chicago. When it arrived at the Chicago sub-treasury and was opened it was found that the gold had been extracted and that iron pieces of about the same weight had been substituted, after which the official seal was restored so perfectly that it took close investigation to discover that it had been tampered with.

The American Express messengers who run between Chicago and Cleveland on the Big Four railroad and a money order clerk of the American Express Company in Cincinnati have been laid off to assist in the investigation.

The Fear of Thirteen.

The fearful grip which this number thirteen superstition continues to have upon the hearts of men and women in all walks of life is incomprehensible. Yet every intelligent person knows that nothing in this world can possibly take place without a cause, and that the cause must be sufficient to produce an effect. The most ignorant person, it would seem, should know that the arbitrary number, thirteen, has no more power to produce any effect to cause any calamity, than a drop of ink. The fact that the ink or paint, instead of being in the shape of a round drop, is put into the form of the numeral thirteen, does not add any force or power to it. A drop of ink or paint on the floor of a hotel room would have just as much power to produce harm as it would if formed into the figure thirteen.—Success Magazine.

Prepares for Return to Asylum.

Harry K. Thaw packed up his grips in the county jail at White Plains, N. Y., Wednesday preparatory to his return to Matteawan. He had to purchase an additional grip in order to house all his belongings. As it was, he threw out several hundreds of letters, most of which were from cranks and women. The Thaw family, it was learned, will make an attempt now to have Thaw released from Matteawan and committed to the custody of his relatives. They will agree never to let him out unless accompanied by a member of his family or a special attendant.

Present-Day Press Agent.

The development of the press agent's functions from his former humble duty of distributing circus and theater tickets and arranging for newspaper and billboard advertising has been remarkable indeed. He has become the official mouthpiece of corporations and large interests, their spokesman and the interpreter of their motives where these are liable to misconception by a captious public; the organizer and accelerator of opinion through statements picturesquely setting forth the merits of the company in question, whether the subject in hand is the superiority of a brand of sugar or of train service to Chicago, or yet the bearing of a higher tariff duty on the ultimate happiness of consumers.—New York World.

The \$100,000 Baby Dead.

The three weeks old daughter of J. F. and Clementine Deshon, the "\$100,000 baby," died Wednesday at their home near Frankfort. It was the birth of this child which saved to Mrs. Deshon and Mrs. Clark, nieces of the late James A. Holt, the splendid farm in Franklin which was to go to the Clark Masonic lodge of Jeffersonville, Ind., if they died without issue.

Lawyers say that even though the child is now dead, its birth gave its parents a fee simple to the big estate and that the lodge can have no further claim upon the property.

BASE BALL.

TUESDAY'S GAME.

The Bourbonites journeyed to Winchester Tuesday and met defeat at the hands of the Hustlers by score of 4 to 2.

The game was uninteresting from start to finish. Sims pitched for the Bourbonites, while Weekley was on the slab for the Hustlers, but was relieved by Tony in fifth inning.

Seven hits were made by each team, the Hustlers coming at times when needed. Following is score and summary:

Paris.....1 0 0 0 0 1 0 0-2
Winchester.....0 0 1 0 1 2 0 0-4

Earned runs—Winchester 1, Paris, 1. Two base hits—Barnett. First on balls—off Weekley 1. Struck out—by Weekley 3; by Tony 2; by Sims 3. Double plays—Weekley to Goosetree to Stout; Ellis to Stout. Hit by pitcher—Sims 2. Hits—off Weekley, 4 in 5 innings; off Tony 3 in 4 innings; off Sims 7. Stolen bases—Stout 2. Sacrifice hits—Seebach, Weekley. Time—1:25. Umpire—Hanley. Attendance—400.

WEDNESDAY'S GAME.

The Lexington Colts were here Wednesday, we are sorry to note, and galloped away with the Bourbonites by score of 3 to 1, in a game that should have been 1 to 0 in favor of Paris.

Scheneberg was in great form and pitched a masterly game of ball. Errors behind him and the failure of the local boys to connect with the ball when a hit meant a run caused the humiliation felt by the crowd of Paris fans present. It was a hard game to lose, especially to the Colts. Kline was in the box for Lexington and was effective at critical points. Following is score and summary:

Paris.....1 0 0 0 0 0 0 0-1
Lexington.....1 0 0 0 0 0 0 2-3

Batteries—Paris, Scheneberg and Elgin; Lexington, Kline and Downing. Hits—Paris, 5; Lexington, 3. Two base hits—Goodman, Kaiser, Kline. Bases on balls—off Scheneberg 2; off Kline 2. Struck out—by Scheneberg 1; by Kline 3. Double plays—Scott to Barnett. Hit by pitched ball—Downing. Stolen bases—Ochs, Hannigan, Viox. Sacrifice hits—Sheets, Harper. Umpire Piepho.

YESTERDAY'S GAME.

The Bourbonites played sure enough ball at Frankfort yesterday and took the game from the Lawmakers by score of 3 to 1. Dugger for Paris, and "Rasty" Wright for Frankfort were pitted against each other and the reliable Dugger won the fight, allowing Frankfort only four hits and one run. Wright was hit freely, but the game was won by fast inside ball playing by the Bourbonites, every man on the team playing a fast game.

Reggie, at Short, and Veatch in right field, the two new players with the Bourbonites, covered themselves with glory by playing star ball.

This news came to us over long distance and is reliable. If we take the game from Lexington here today we will again be in third place. Things look considerably brighter than they did Wednesday evening.

Scott, the crack short stop of the Paris team, was called home Wednesday evening by the death of his grand-

father in Cincinnati. He will be back in time for Sunday's game.

Pitcher Barnes and second baseman Maxey have been released by Manager Barnett.

Claude Veatch, said to be a fast outfielder, was given tryout by Manager Barnett at Frankfort yesterday.

To Prevent Big Leaguers Coming in.

In order to prevent the bringing in of big leaguers to hold out base ball teams in the Blue Grass League at the close of the season a movement has been started by adopting resolutions to the effect that players will have to be signed before they can play in any games after the first of September.

If these resolutions are not adopted it is possible for the managers of the teams to bring better players here under verbal contract and not sign them and pay them large salaries for their services.

The big leaguers will not sign with these small "fry," as they would probably be drafted by a higher class team and would have to go, thereby doing themselves harm by signing with small teams for only fifteen days. The following resolutions have been mailed to all the directors and they will notify President George I. Hammond whether they will adopt them or not. The resolutions follow:

Resolved, That no player shall be eligible to engage in a game of base ball with any club a member of the Blue Grass League who has not signed a contract with the club offering to play him before September 1, 1909, and who has not played at least one game with some club a member of said league, on or before said date.

Any club violating this provision shall be fined not less than twenty-five dollars (\$25.00) nor more than three hundred dollars (\$300.00), in the discretion of the board of directors of the league, for each violation, and all games played shall be forfeited to the opposing club, unless otherwise ordered by the board of directors of said league.

Real Puzzlers.

Some of you who think you are well up in spelling just try to spell the words in this little sentence. "It is agreeable to witness the unparalleled ecstasy of two harassed peddlers endeavoring to gauge the symmetry of two peeled pears with a pair of scissors." Read it over to your friends and see how many of them can spell every word correctly. The sentence contains some of the real puzzlers of the spelling book.

To Insure a Stand of Alfalfa.

We got this pointer direct from M. C. Rankin, State Commissioner of Agriculture. Alfalfa will grow on any land that will produce locust bushes. To get a sure stand on any land where it is difficult to make it take hold, plow the land in the spring and cultivate it throughout the summer same as if cultivating a crop, keeping the weeds down and the soil stirred so that it will retain moisture. Then sow the alfalfa at the proper time in the fall and you will be sure of a stand and a crop that will not only pay better than any other crop but will increase the fertility of the soil. It is worth trying.

Quarantine Lifted for Fair.

Commissioner of Agriculture Rankin Wednesday received a telegram from the Agricultural Department stating that the quarantine on sheep has been lifted on the sheep to be shipped into Kentucky for the State Fair.

Kentucky's First Quarantine.

For many years sheep scab has been quite prevalent in the West, but as a result of the combined efforts of the Federal and State authorities much territory has been entirely freed and the infection in other sections has been greatly reduced, and it is hoped that within a few years more the disease will be entirely stamped out. The present quarantine against Kentucky is the first time that the disease has obtained a sufficient foothold to require a Federal quarantine.

Wheat Threshing Almost Done.

Wheat threshing in Central Kentucky is almost completed and late reports of the conditions show that the loss experienced through the heavy rains which delayed threshing so long will not be as great as was expected. During the early part of the season the yield promised to be the record but the loss caused by rains cut it to about an average crop.

The latest government report on crop conditions in Kentucky says the yield will be about eleven bushels to the acre, about an average. The quality of the grain is not extra good, but owing to its scarcity during the early part of the threshing season a good price was offered for it and in some instances the farmers received the best price they have gotten for some time.

Hermit Dead.

News has come of the death at Greenbrier, Nelson county, of Basil Hayden, who had not stepped outside the picket fence surrounding his yard since President Lincoln freed the slaves.

It was not resentment at this act that caused Hayden's seclusions, for neighborhood tradition is that he shut himself in a little room that day in 1863, after his sweetheart died, and looked no more upon men.

An overseer of Hayden's estate, named Borders, was the only human being whom the anchorite saw, and Borders declares that the words which he exchanged with the recluse in a score of years can be enumerated upon his fingers.

Hayden hid an estate which will amount to nearly \$100,000, in pillow slips and cast off clothing.

Prominent Man Shot.

Richard D. Watson, Cashier of the Central of Georgia railroad, was shot and perhaps fatally wounded in his office at Augusta, Ga., Wednesday by Miss Elvira Todd, aged 22. Six shots were fired at Watson, three of which entered the body, one just above the heart. In her statement to the police Miss Todd accused Watson of causing her downfall.

Young Dentist Suicides.

Dr. H. W. Keidel, a dentist of Murray, fired three shots from a window of his office Wednesday night, the bullets striking an attorney, E. E. It is probable that Acree's leg will have to be amputated.

Railroad Conductor Sues.

A damage suit for \$20,000 has been filed in the Harrison Circuit Court by W. L. Chappell, of Covington, against the Louisville & Nashville railroad company, the Cynthiana Telephone Company and Joseph H. Berry, a farmer of Berry. Mr. Chappell is a conductor in the employ of the L. & N., and in his petition he alleges that on June 15 while in the pursuit of his duties as conductor on a freight train, he was on the top of his train and was struck by a telephone wire running to the residence of Joseph H. Berry over the railroad right of way, and was thrown to the car with great force, injuring him to the extent of \$20,000.

Wellman's Start Postponed.

A dispatch from Walter Wellman's Arctic expedition camp at Spitzbergen, dated August 14 says:

"A north gale which had been blowing since August 5, dropped on the 12, and Mr. Wellman made ready to start in search of the North Pole. The balloon was inflated and provisioned and the motors were working smoothly. On the 13 the wind was still variable, but Mr. Wellman decided to get the airship out of the house.

"The tourist ship Theia arrived about that time and her passengers spent the night ashore, watching the preparations for the flight and hoping to see the start. The officers and crew of the Theia assisted in swinging the airship back into the shed to wait for more propitious weather."

Dispensary Loss.

In the local option elections held in South Carolina in 21 out of 42 counties, the dispensary losses in fifteen. For the first time the anti-saloon league took an active interest in the prohibition movement in that State and not since the stirring factional contests in the early nineties when Benjamin R. Tillman, first entering upon a spectacular political career, has such a campaign been witnessed as that waged by the anti-saloon league leaders, church folk and anti-dispensaries, against the return to dispensaries.

Those who favored the retention of the dispensaries displayed very little energy in influencing the elections. Very little, if any, money was expended by either side at the polls Tuesday, according to reports.

Asks for Divorce.

Mrs. Maggie Rogers McClintock filed suit against her husband James D. McClintock, of this city, in the Fayette Circuit Court, Tuesday afternoon, asking that the court grant her a judgment for separation, the custody of their baby daughter, Rachel, and for sufficient alimony to support them both. The petition which was filed by Attorneys Robert C. Talbot, W. H. Whitley and George C. Webb, states as ground for the plea that the defendant has "habitually behaved toward her for not less than six months in such a cruel and inhuman manner as to indicate a settled aversion to her." The petition further states that on this account the plaintiff left her home and is now residing in Fayette county. It states that Mr. McClintock owns real estate and property valued at \$40,000 and prays for a divorce from bed and board, asks for the custody of their infant daughter, proper alimony, costs and relief.

The Silent Pleader

"Are you alone, mother?" "Yes, my boy; come in," and Mrs. Raynold beamed with pride as her stalwart boy entered her sitting room. He went straight to her and sat on the ottoman at her feet, as he had often done when he had come to her with childhood petty troubles. The mother drew his head down on her lap, smoothing his hair with a gentle hand.

"What is troubling you, Richard? Can I help you?"

"I don't know, mother. I hardly know how to begin to tell you." He paused a moment, then went on. "There is a girl, mother—a little brown-eyed, brown-haired, soft-voiced girl, and I love her."

"Yes, Richard?"

"She is of good family, but, oh! so poor! She thinks I am but a poverty-stricken mechanic, and loves me because of it. I am going to marry her."

"You had best tell your father."

"I have, and he informed me I was crazy. He had arranged a marriage for me with Miss Lincoln, so that our joint fortunes would enable me to further my railroad interests. I told him he might be general manager of the concern he owned and which employed me, but he was not director of my heart. That I would marry Anna, and if he disowned me I had skill enough as a mechanic to support her."

"Richard!"

"Mother, I love her! and so will you when you see her. I do not want to antagonize father, but I will not give in to his will."

"I will try to win him over, for I know you would select none but a worthy girl to be your wife."

"Thank you. I know you will not regret it." He kissed her tenderly, and as he walked out of the room his mother watched, with tear-dimmed eyes, till he was out of sight, then turned to the task set before her.

Her husband sat in his study, the papers scattered on his desk unheeded, his brow drawn into a frown as he gazed into space. The soft rustle of his wife's gown broke his meditation.

"That young fool," he began, testily, "spoiling his chances because a baby face has infatuated him. Ignoring my wishes and actually ruining his entire life."

"Come, William, I have ordered the carriage and we can talk it over as we drive."

He followed her passively enough to the waiting carriage. He was surprised to find it the simplest in his stable.

"I wished to drive myself," explained his wife.

So engrossed was he in dilating upon the enormity of his son's foolishness that he did not notice where his wife was driving to until they turned into a pretty country lane.

"This road seems familiar," he remarked, then sat up straight as his wife stopped in front of a tiny house set back from the street. "Why, this is the house we lived in when we were first married."

He followed her down the lilac-bordered walk into the house.

"Madge, it looks as if did the day we left it. What does it mean? How is it you have the keys?"

"Do you remember that first check you gave me?"

"Yes, to buy jewels with."

"William, this was the jewel I bought." With a sudden change of humor she laughed merrily. "William, let us stay here for tea and I will cook it myself. You go down and carry up some wood. Here, hang your coat on its old hook. It will seem like old times to see you in your shirt sleeves."

He, falling into her humor, did as she bade. A few minutes later he came upstairs to find his wife preparing a simple meal, her silken gown shielded by a calico apron.

"Madge," he called to her eagerly, "my old worktable is still down there. Do you remember how pleased we were the day I finished it?"

"Yes, indeed I do, Billy," using unconsciously the name the dignified William had long ago replaced.

As she set the table in the little kitchen, she watched her husband busily building the fire and whistling a song he was wont to sing in the old days.

When she placed the dainty, simple meal on the table Mr. Raynold drew up his chair with a sigh of satisfaction.

"I can't remember a meal I have enjoyed as much as this in a great many years; not since we left the little house. We were happy those days, Madge. More happy than we have been since. You look just as you did then, except your hair is gray. I well remember how proud I was of my pretty bride and the tiny home my two dollars a day was supporting. Here, Madge, dear, let me dry those dishes."

Towel in hand, he painstakingly dried each dish, and as he set the last cup in the closet slipped his arms about his wife and stole a kiss, just as he had done in the first happy days of their married life.

"Billy, dear, let our boy taste of the joys we shared in that almost forgotten past. He loves a girl, who must be worthy of that love, just as you loved me. You would brook no interference and you must not blame him for not wishing to obey your demand. Let our love and happiness in the days we were poor plead for him now." Her voice was trembling with eagerness, her eyes reflecting the great love she bore these two men. For a moment he hesitated, then he smiled and said:

"You are right, wife; let us go home and wish our boy Godspeed."

Confederate Reunion.

The annual reunion of the Tenth Kentucky Cavalry and the Sixteenth Kentucky Infantry will be held in Maysville, Wednesday, September 22. The ranks of the old veterans of the civil war are rapidly thinning out as the years go by. A number will not respond to roll call who answered to their names last year.

Dignity of British Courts.

Judge Bacon, addressing a solicitor at the close of a case in the White-chapel county court recently said: "I do not wish to suggest any improvement in the dress or attire of solicitors, but I really do not think it is proper for a black gown to be on such a light coat." The solicitor bowed his acknowledgment to the judge, whose objection was well founded on many judicial precedents.—Law Journal.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Dowries in India.

The custom of extorting dowries has grown into the very fabric of the social life and is a standing disgrace to the Bengali community, which has no justification to plead or apology to offer. The practice has now assumed alarming proportions of parents of boys extorting costly dowries as a condition of marrying their sons. The marriage of a daughter among Bengalis has become an expensive affair, and the amount in cash demanded by the father or guardian of the boy and paid by the father or guardian of the bride varies with the educational attainments of the bridegroom. The Indian Daily News published a few days ago a piteous appeal from respectable Hindu parents of dowryless daughters.—Indian Nation.

Improvements on Old Sayings.

"Never do things by halves," unless you open oysters. Whatever is worth doing at all is worth doing well. Let your motto be "Excelsior!" Single out some specialty for which you have genius, then devote yourself to it thoroughly, and you won't have to look for a job, the job will be looking for you. The most brilliant men are often lamentable failures. Be thorough! Stick like the postage stamp—till you get there. Dogged does it.

Drowned at Frankfort.

While trying to learn to swim, J. D. Cobb went to his death in the Kentucky River at Frankfort late Tuesday afternoon in spite of heroic efforts on the part of his friend, R. S. Landrum, who nearly lost his life in an effort to rescue Cobb. Cobb was agent for the Prudential Life Insurance Company at Frankfort. Landrum is superintendent.

The two, with some of their friends, went in the river at the foot of Shelby street where there is a good beach for bathing. A large coal barge was anchored at that point and Cobb, who could not swim, was hanging to a rope tied to the barge. Cries for help were heard from Cobb and Landrum went to the rescue after Cobb had sunk. Landrum found Cobb and pulled him to the surface of the river, but was unable to get him to the shore on account of Cobb's struggles. Finally Cobb sunk and Landrum went down with him. After vainly struggling under the water Landrum found that he could not save Cobb, so he released the body and came to the surface, almost exhausted. He was close to the shore and was able to make the landing easy. Cobb leaves a wife and two children, the youngest only about a week old.

Sixth Toe Unwelcome.

On the line between Lincoln and Sagadahoc counties, Maine, is a settlement of thrifty farmer folk peculiar for the number of people in the settlement who have six toes on each foot. The sixth toe is an offshoot from the little toe of the ordinary foot. It is perfect in shape, although it is not always in alignment with the other five toes of the foot. For this reason it is troublesome and becomes more troublesome as the people advance in years.—N. Y. Herald.

Civil War Survivors.

Many persons wonder that there are almost half a million surviving soldiers of the civil war considering that it is forty-eight years since it began and forty-four since it ended. The reason lies in the fact that it was a young man's war as the following official statistics as to the age of men as they enlisted will show:

At the age of 10 and under.....	25
At the age of 12 and under.....	225
At the age of 14 and under.....	1,523
At the age of 16 and under.....	844,801
At the age of 18 and under.....	1,151,438
At the age of 21 and under.....	2,159,798
Twenty-two years of age and over.....	618,516

These figures include enlistments, of which there were almost two millions, but it can be easily seen that this was practically a boy's war, since only a small percentage were twenty-two years and over, and these must to a large extent have enlisted previously. It is estimated that if the year 1863 be taken as a starting point, since it was the middle of the war, the average age of the soldier was about twenty-two, which would make sixty-eight at the present. That is a fair age, but not old by any means, and it ought to be remembered those who served through the campaign and came out fit showed virility which indicated a promise of living beyond this.

The Secret of Long Life.

A French scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. Its a Godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Me., "but Electric Bitters cured me entirely." Only 50c. at Oberdorfer's drug store. aug

To Hide the View.

It was reported in the papers several days ago that Ed. Callahan since he was shot in his store, in Breathitt county, has made a practice of running from his store to his home to puzzle the aim of any sharpshooter who might be lurking in the woods nearby in order to get a crack at him. Callahan has, says a Jackson visitor, decided of late this is too much trouble and accordingly has built a high fence from his store to his home, which obscures the view of his route.

Mixed the Tunes.

In a Montreal theater the other night the orchestra undertook to play the national anthem with queer results. Part of the musicians were Italians from New York, who perhaps did not realize that they had crossed the frontier. So while the local auxiliaries played "God Save the King," the visitors struck into "The Star Spangled Banner" and the Americans in the audience promptly came vociferously to their support. The American air won after a sturdy conflict.

BIRD SEED BILL \$7,000,000

Large Amount of Money Is Spent Each
Year to Provide Food for the
Canaries.

New York.—The manner in which
this country spends money on articles
which the average man never consid-
ers as contributing to the cost of liv-
ing was strikingly illustrated recently
when it was shown by figures from
the customs office that we annually
consume \$7,500,000 worth of canary
bird seed.

There are not less than 5,000,000
caged birds in the United States, ac-
cording to the closest computations
available. The ordinary house canary
consumes about twenty-five pounds of
seed a year, or some 200 times his own
weight, at an average cost of \$1.50 per
bird. New York, with its 400,000
canaries, leads all the other cities with
a bird food bill of \$600,000 annually.

Most of the canaries in this coun-
try, according to the report, come
from Germany, 250,000 of them being
shipped from that country every year.
The wholesale average price, accord-
ing to the largest local importer, is 71
cents for male birds and 17 cents for
females. According to his statement
canaries are about as cheap a luxury
as can be found, because of the fact
that they are most generally pur-
chased by persons of small means,
who at the first attempt to boost the
price immediately stop buying.

Including the birds themselves, seed,
other food, cages and dishes and the
like, it is estimated that this country
invests annually about \$25,000,000 in
canary music, a figure to make even a
grand-opera impresario jealous.

DOG PULLS MAN OVERBOARD.

Owner of Canine Entangled in Chain
Dragged from Wharf and
Nearly Drowned.

Chicago.—In the presence of a
crowd of spectators John Anderson of
316 Division street was dragged from
the wharf at the foot of Division
street into the lake by a huge St. Ber-
nard dog and had a narrow escape
from death. His feet were entangled
in a chain by which he had been lead-
ing the dog. The latter, becoming
frightened at the struggles of Ander-
son, proceeded to swim out into the
lake.

Anderson was saved by John Mon-
son, Samuel Magnuson and Carl
Peterson, clerks at the post office.

The rescuers in a rowboat pursued
the dog, who was dragging Anderson
to his death, reaching them some dis-
tance out in the lake. The animal
fought the rescuers off, and it was al-
most impossible to reach Anderson,
whose head was beneath the water.

Finally Monson leaped into the wa-
ter and engaged in a battle with the
dog, while Magnuson and Peterson
seized the chain and drew Anderson to
the surface. Anderson was taken
from the water unconscious, but after
reaching shore was revived. The dog
was fastened to the boat and also
was saved.

CARRIED MAIL 24,000 MILES.

Young Pennsylvania Woman the Only
Star Route Carrier Who Has
Never Been Late.

Bristol, Pa.—After carrying the
mail 24,000 miles, during her 11 years
and five months' service between Bris-
tol and Woodbourne, Miss Grace Van
Hart of Roslofs has given up her posi-
tion and has been succeeded by Thad-
deus M. Eustis.

She carried the mail on what is
known as a "Star" route, traveling in
a small cart. Her route was from
Bristol via Emille to Woodbourne,
about eight miles, and as she covered
the round trip 300 times a year the
total of her traveling is almost the
same as the circumference of the
earth.

The post-office clerks at Bristol
state that Miss Van Hart was the
only one of the Star route postmen
from this point who never was, in her
whole term of service, behind time
with the mail, being always so punc-
tual, no matter what the weather, that
farmers along the route used to set
their clocks when she came in sight.
She won many warm friends along
the route because of her courtesy and
her willingness to accommodate
patrons.

To Seek South Pole.
Los Angeles, Cal.—Capt. Rowland
W. Webster, appointed by the Royal
Geographical society to lead an expe-
dition in search of the south pole,
has left for New York. He will
embark from there for London to
prepare for the antarctic trip which
will begin next August.

Notification of the appointment
came to Capt. Webster as he reached
San Francisco on his twenty-fifth jour-
ney across the world.

He earned his title in the Soudan
with Lord Kitchener. He also served
in the Boer war.

Fail in Naval Test.
Washington.—Because of mental or
physical deficiencies half the candi-
dates for commissions in the United
States marine corps failed to pass the
examinations here. Eighteen of 29
who failed were mentally fit, but were
deficient physically. Seven failed men-
tally, and the four other candidates
did not pass the final, or professional,
examinations.

Try Water Cure for Pellagra.
Hot Springs, Ark.—The thermal wa-
ters of Hot Springs are to be tested in
an effort to find a cure for the disease
of pellagra. Two subjects have been
brought to this city from Mississippi
for treatment and observation by lo-
cal medical men.

Waiting for Himself.
Prof. Henry Beers of Yale is a typ-
ical savant of the most old-fashioned
sort, and his oddities have given rise
to a mythology of absent-mindedness.
On leaving his lecture room one day
he pinned a notice on the door to the
effect that he would be back at four
o'clock. Returning some time earlier
than he had expected, he was attract-
ed by the notice. He read it thought-
fully, looked at his watch, and, seeing
that the professor would not be in
for fully ten minutes yet, sighed and
turned away to kill the time till he
himself would return.—Bohemian.

British Naval Estimates.
The British naval estimates call for
an expenditure of \$175,713,500 during
the next fiscal year. This is almost
\$40,000,000 more than the United
States will spend and very nearly
twice the sum that Germany will de-
vote to her establishment. Great
Britain had 479 ships complete for sea
(including 149 destroyers, 98 torpedo
boats and 49 submarines) in March,
1908, and the complement consisted of
99,679 officers and men and 18,371 ma-
rines.—New York Sun.

Make the Most of Everything.
A man who knows the world will
not only make the most of everything
he does know, but of many things he
does not know; and will gain more
credit by his adroit mode of hiding
ignorance than the pedant by his awk-
ward attempt to exhibit his erudition.

Mortgage on a Cat.

A mortgage on a cat is not often heard of. However, the other day there was filed in the recorder's office a chattel mortgage the consideration of which was \$20. The property on which the money was secured was described as a "cat called John."—Columbus Dispatch.

SIMON'S Final REMOVAL SALE

Is Still Going On.

Big Foreign Loan Settled.

American participation in the Haku-Sze-Chuen railroad loan was definitely settled at the offices of the foreign board at Pekin by Henry P. Fletcher, the American Charge d' Affaires, and Lian Tun-Yen, president of the board. The loan is to be increased from \$27,000,000 to \$30,000,000, and of this latter amount American bankers are to get one quarter, the other three quarters going to British, French and German interests.

The Burley Society Files Suit.

The Burley Tobacco Society filed suit at Winchester Wednesday against the independent tobacco companies who signed the contract for the purchase last fall of the 25 per cent. of the crops of 1906 and 1907 crops remaining in the pool after the big sale to the American Tobacco Company.

The society asks for damages in the sum of \$213,200 for the refusal of the independent buyers to receive 4,400 hogheads at the price stipulated in the contract. The defendants named are as follows: Axton Fisher Tobacco Company, White Plume Tobacco Company, Boone Tobacco Company, Lovell-Buffington Tobacco Company, E. A.

Shelby Tobacco Company and the Blue Grass Tobacco Company, all corporations doing business under the laws of Kentucky, and the United States Tobacco Company, Pennsylvania Tobacco Company, Larus & Brothers, R. Whalen Tobacco Company, Frismuth Brothers & Co., Globe Tobacco Company and Clark & Scott, corporations organized in other states, but doing business in Kentucky, and J. L. Walker Tobacco Company, a partnership composed of W. G. Walker.

Intellect Ruled by Superstition.

A man more absolutely governed by pure reason than Lord Macaulay could not well be found, but in his diary he refers to an after-dinner talk about the feeling which Johnson had—of thinking one's self bound to touch a particular rail or post and to tread in the middle of a paving stone, and he adds: "I certainly have this very strongly."
